Dear Dr Mbongeni H. Mabaso

I am writing this letter to express my sincere gratitude for the exceptional science experiments support that your organisation, **Funulwazi Development Academy (FDA)**, provided to our Grade 12 Physical Science learners. The chemistry practical experiments conducted by the FDA Facilitators in July and August 2023 were very helpful to our learners and science educators. The guidance, facilitation, and encouragement shown by the FDA Facilitators to Learners and Science Educators played a vital role in assisting them on how to handle the laboratory apparatus and equipment properly. The knowledge gained by the Learners and Science Educators was demonstrated throughout the practical sessions.

As a science teacher, your support has not only helped me in fulfilling my SBA requirements but has also taught how to be patient when engaging learners in Science practical session. I have always felt confident in knowing that I could rely on your skills development support whenever I need assistance or guidance in my career. I appreciate the time and effort your staff have taken to provide assistance to our school which is more challenged and disadvantaged due to lack of appropriate infrastructure in its community.

Once again thank you for all you have done for our learners. Your contribution and support will let them improve their Physical Science results this year. I am looking forward to receive such engagements with your organisation next year.

With sincere appreciation

Mrs I.L Bukosini

Physical Science educator (Mayville Secondary School)
